In the long history of warfare and cultural and ethnic violence, the twentieth century was exceptional for producing institutions charged with seeking accountability or redress for violent offenses and human rights abuses across the globe, often forcing nations to confront the consequences of past atrocities. The Holocaust ended with trials at Nuremberg, apartheid in South Africa concluded with the Truth and Reconciliation Commission, and the Gacaca courts continue to strive for closure in the wake of the Rwandan genocide. Despite this global trend toward accountability, American collective memory appears distinct in that it tends to glorify the nation's past, celebrating triumphs while eliding darker episodes in its history. In American Memories, sociologists Joachim Savelsberg and Ryan King rigorously examine how the United States remembers its own and others' atrocities and how institutional responses to such crimes, including trials and tribunals, may help shape memories and perhaps impede future violence. American Memories uses historical and media accounts, court records, and survey research to examine a number of atrocities from the nation's past, including the massacres of civilians by U.S. military in My Lai, Vietnam, and Haditha, Iraq. The book shows that when states initiate responses to such violence—via criminal trials, tribunals, or reconciliation hearings—they lay important groundwork for how such atrocities are viewed in the future. Trials can serve to delegitimize violence—even by a nation's military— by creating a public record of grave offenses. But the law is filtered by and must also compete with other institutions, such as the media and historical texts, in shaping American memory. Savelsberg and King show, for example, how the My Lai slayings of women, children, and elderly men by U.S. soldiers have been largely eliminated from or misrepresented in American textbooks, and the army's reputation survived the episode untarnished. The American media nevertheless evoked the killings at My Lai in response to the murder of twenty-four civilian Iraqis in Haditha, during the war in Iraq. Since only one conviction was obtained for the My Lai massacre, and convictions for the killings in Haditha seem increasingly unlikely, Savelsberg and King argue that Haditha in the near past is now bound inextricably to My Lai in the distant past. With virtually no criminal convictions, and none of higher ranks for either massacre, both events will continue to be misrepresented in American memory. In contrast, the book examines American representations of atrocities committed by foreign powers during the Balkan wars, which entailed the prosecution of ranking military and political leaders. The authors analyze news accounts of the war's events and show how articles based on diplomatic sources initially cast Serbian President Slobodan Milosevic in a less negative light, but court-based accounts increasingly portrayed Milosevic as a criminal, solidifying his image for the public record. American Memories provocatively suggests that a nation's memories don't just develop as a rejoinder to events—they are largely shaped by institutions. In the wake of atrocities, how a state responds has an enduring effect and provides a moral framework for whether and how we remember violent transgressions. Savelsberg and King deftly show that such responses can be instructive for how to deal with large-scale violence in the future, and hopefully how to deter it. A Volume in the American Sociological Association's Rose Series in Sociology.

Shaped with a clear political chronology, MAKING AMERICA reflects the variety of individual experiences and cultures that comprise American society. The book's clear and helpful presentation speaks directly to students, sparking their curiosity and inviting them to "do history" as well as read about it. For instructors whose classrooms mirror the diversity of today's college students, the strongly chronological narrative, together with visuals and an integrated program of learning and teaching aids, makes the historical content vivid and comprehensible to students at all levels of preparedness. Available in the following split options: MAKING AMERICA, Seventh Edition (Chapters 1-29), ISBN: 978-1-285-19479-0; Volume I: To 1877 (Chapters 1-15), ISBN: 978-1-285-19480-6; Volume II: Since 1865 (Chapters 15-29), ISBN: 978-1-285-19481-3. Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States. Leaving behind the traditional melting-pot model of immigrant assimilation, Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States. His astute study illustrates the complex relationship between ethnic identity and race, slavery, and colonial expansion. Examining not only the lives of those who crossed the Atlantic, but also those who crossed the Pacific, the Caribbean, and the North American Borderlands, Almost All Aliens provides a distinct, inclusive analysis of immigration and identity in the United States from 1600 until the present. With their collection *In Search of the Black Panther Party*, Yohuru Williams and Jama Lazerow provided a broad analysis of the Black Panther Party and its legacy. In *Liberated Territory*, they turn their attention to local manifestations of the organization, far away from the party's Oakland headquarters. This collection's contributors, all historians, examine how specific party chapters and offshoots emerged, developed, and waned, as well as how the local branches related to their communities and to the national party. The histories and character of the party branches vary as widely as their locations. The Cape Verdeans of New Bedford, Massachusetts, were initially viewed as a particular challenge for the local Panthers but later became the mainstay of the Boston-area party. In the early 1970s, the Winston-Salem, North Carolina, chapter excelled at implementing the national Black Panther Party's strategic shift from revolutionary confrontation to mainstream electoral politics. In Detroit, the Panthers were defined by a complex relationship between their above-ground activities and an underground wing dedicated to armed struggle. While the Milwaukee chapter was born out of a rising tide of black militancy, it ultimately proved more committed to promoting literacy and health care and redressing hunger than to violence. The Alabama Black Liberation Front did not have the official imprimatur of the national party, but it drew heavily on the Panthers' ideas and organizing strategies, and its activism demonstrates the broad resonance of many of the concerns articulated by the national party: the need for jobs, for decent food and housing, for black self-determination, and for sustained opposition to police brutality against black people. *Liberated Territory* reveals how the Black Panther Party's ideologies, goals, and strategies were taken up and adapted throughout the United States. Contributors: Devin Fergus, Jama Lazerow, Ahmad A. Rahman, Robert W. Widell Jr., Yohuru Williams

*Law and Society in the South* reconstructs eight pivotal legal disputes heard in North Carolina courts between the 1830s and the 1970s and examines some of the most controversial issues of southern history, including white supremacy and race relations, the teaching of evolution in public schools, and Prohibition. Finally, the book explores the various ways in which law and society interacted in the South during the civil rights era. The voices of racial minorities—some urging integration, others opposing it—grew more audible within the legal system during this time. *Law and Society in the South* divulges the true nature of the courts: as the unpredictable venues of intense battles between southerners as they endured dramatic changes in their governing values.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

*Out of Many* is a coherent narrative of American history that offers insight into how diverse communities and different regions have shaped America's past. The text reveals the ethnic, geographical and economic diversity of the United States by examining the individual, the community and the state and placing a special focus on the country's regions, particularly the West. The updated edition features new and expanded coverage of a wide variety of topics in addition to MyHistoryLab tools that connect the text to interactive online learning tools to bring U.S. history to life.
