Functionalists view culture as a reflection of society’s values. Conflict theorists see culture as inherently unequal, based upon factors like gender, class, race, and age. An interactionist is primarily interested in culture as experienced in the daily interactions between individuals and the symbols that comprise a culture.

Theoretical Perspectives on Culture | Introduction to ...
Functionalists view society as a system in which all parts work—or function—together to create society as a whole. In this way, societies need culture to exist. Cultural norms function to support the fluid operation of society, and cultural values guide people in making choices. Just as members of a society work together to fulfill a society’s needs, culture exists to meet its members’ basic needs.

Cultural Perspectives. The Core Texts Program is a two semester course sequence, Cultural Perspectives 101 and 102, taken by all Samford University students. In these courses students engage ideas that form a narrative of human learning. Here, they are taught to read, think, and communicate by interacting with classic texts that have stood the test of time.

Cultural Perspectives - Samford University
Here is one viewpoint. "Culture" refers to a group or community which shares common experiences that shape the way its members understand the world. It includes groups that we are born into, such as race, national origin, gender, class, or religion. It can also include a group we join or become part of.
