Give your students a strong foundation in Java programming and the confidence to build successful mobile applications. ANDROID BOOT CAMP FOR DEVELOPERS USING JAVA: A GUIDE TO CREATING YOUR FIRST ANDROID APPS, by award-winning technology author Corinne Hoisington, helps prepare students with a thorough introduction to Java and the keys to creating effective mobile applications.

Designed for a first-semester course in programming, the book can be used by students with no prior Java experience. The book offers an intensive, hands-on tutorial approach with clear, step-by-step instruction and numerous screen shots to guide readers efficiently through tasks with real-life app examples. Practical callouts and industry tips, exercises that extend learning beyond the book, and a variety of leveled cases and assignments help reinforce students' understanding of programming logic and Java tools for Android. Effectively prepare student programmers to meet growing business demand for mobile apps with this engaging text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The four-volume set LNCS 8517, 8518, 8519 and 8520 constitutes the proceedings of the Third International Conference on Design, User Experience and Usability, DUXU 2014, held as part of the 16th International Conference on Human-Computer Interaction, HCII 2014, held in Heraklion, Crete, Greece in June 2014, jointly with 13 other thematically similar conferences. The total of 1476 papers and 220 posters presented at the HCII 2014 conferences were carefully reviewed and selected from 4766 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of Human-Computer Interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 256 contributions included in the DUXU proceedings were carefully reviewed and selected for inclusion in this four-volume set. The 66 papers included in this volume are organized in topical sections on design theories, methods and tools; user experience evaluation; heuristic evaluation; media and design; design and creativity.

The perfect place to learn how to design Web sites for mobile devices! With the popularity of Internet access via cell phones and other mobile devices, Web designers now have to consider as many as eight operating systems, several browsers, and a slew of new devices as they plan a new site, a new interface, or a new sub-site. This easy-to-follow friendly book guides you through this brave new world with a clear look at the fundamentals and offers practical techniques and tricks you may not have considered. Explores all issues to consider in planning a mobile site Covers the tools needed for mobile design, in particular XHTML and CSS Shows you how to plan for multimedia, e-commerce, and marketing your site, including adding audio, video, and social networking Provides real-world examples and tips to help you avoid common pitfalls If you're contemplating Web design in a mobile world, start first with this practical guide.

The mystique of private investigating draws significant numbers of people to consider it as a career or side business. At the same time, individuals want to learn investigative techniques to solve their own personal and legal problems. In *The Complete Idiot's Guide® to Private Investigating*, Third Edition, private investigator and former FBI agent Steven Kerry Brown shares his hard-won expertise on everything you need to know to track down people and information, including: - Tapping phones and recording conversations - Interviewing and interrogating to get important information - Tricky but legal ways to get needed evidence like the pros - Performing onsite, online, and mobile surveillance without being detected - Skip tracing to find lost loves or people who owe money - Investigating backgrounds of potential employees or spouses - Searching public records online and at the courthouse - Catching a cheating spouse and gathering evidence for divorce cases - Finding runaway teenagers - Doing diligent searches connected with adoptions and estates - Tracking down burglars, thieves, pickpockets, and purse snatchers - Advanced techniques and business advice for those interested in starting their own investigative or background screening agency Along the way, Brown shares fascinating stories from his cases that highlight his clever methods for tracking down evidence and helping his clients find out what they need to know.
